Thursday was pizza night at the Texas tent.

When the CBS Morning Show weatherman broadcasted from the rally grounds, Texas was up bright and early (6:00 a.m.) to join the crowd and show off our "Rockin' Reunion" sign to the viewing audience.

You can always find a game of something going on at a WIT rally and GNR 2008 was no exception.

On a clear day you could see "forever" when rides in this colorful hot air balloon were offered to any takers. Although it was tethered, it gave a spectacular view of Forest City and the rally grounds.
