

NOR-TEX TRAVELERS NOVEMBER IN WEATHERFORD, TEXAS

Nor-Tex Travelers November meeting was full of good eats with a Turkey fry by wagon master Mike Reid. The officers finished out the Thanksgiving celebration with the traditional sides and pies. It was a thankful weekend of good friends and great outings.

A trip into Weatherford to visit the Kennedy Sausage Factory supplied delicious sausage for our Saturday breakfast. Of course, a visit to the Country Market for local produce, honey, and pecans rounded out the day.

Saturday morning after the monthly meeting, guest speakers arrived from one of the local volunteer fire departments to increase our awareness for fire safety. The fireman showed videos, discussed the dangers of a confined space with free burn potential.

The highlight of the discussion was to actually use fire extinguishers on a controlled fire. The types of extinguishers were shown and the ABC extinguisher was the recommended choice. The fireman stressed you only have minutes to use the extinguisher to create a path way for you to escape. Do not try to fight the fire. Know your emergency exits and procedures. Be safe!

The Travelers are an exciting bunch. So many friends gathering at monthly meetings full of games and outings! We are preparing our December meeting and we do hope to see you January in Hempstead, Texas with the rest of our Texas W bunch.
